

Hi Pete,

I hope you are having a good weekend.

During your evaluation, here are the questions most pros want to know below.

The #1 thing most of us miss, myself included when I first turned this down, this is NOT A USA start-up. APLGO is a proven 9 year old European company operating in 30 countries around the world with 14 distributions warehouses. They have 252,000 distributors and the top income earners are already earning \$100,000+ monthly as documented here:

Yes they have recently launched in North America and other English speaking countries around the world. They provide a PROVEN opportunity that is ground floor, but not all the risk of most companies that are in business 5 years or less.

Who is the owner, and what is his background?

I love the fact that Surgy started in the field when he was 17 years old with Agel. He is young and has big goals. He has said publicly that his goal is to create more millionaires than any other company in network marketing history. He has a heart for the field.

What makes the products a Category Creator and different?

They own all the tech, patents and manufacturing facility. There is no competition for these negative ion infused drops, and never will be. Voted Top Immune Product

What about the compensation plan?

Cliff it is the most lucrative plan I have seen in 40 years, it is a hybrid that pays past 63% of every wholesale dollar to the field. What makes it unique, is the way it pays out. It is fair to newbies and builders.

What about the team?

Honestly, I can't believe I get to do this one more time. I would never do it again, if the timing wasn't perfect. My goal is to develop 500 six figure earners and 10 millionaires on my personal team over the next 5 years. I know that sound like blah blah mlm hype, but with New Image we developed 200 six figure earners, and 3 millionaires, so that would be roughly what I did in a 5 year period with NII.

I was the #1 recruiter in the world the month I joined, and the second month, then my father-in-law got sick and ultimately passed and it took us out of rhythm for a few weeks.

The screenshot shows the MLMSuccess.com website. At the top, it says "SECRETS from the NUMBER ONE APL GO RECRUITER IN THE WORLD". Below that, there's a section titled "Recruiting And Team-Building Secrets From The #1 APL GO Recruiter In The World" with a small MLM SUCCESS logo. To the right, there are two side-by-side panels. The left panel is titled "BEST RECRUITERS IN AUGUST" and lists a top performer, Dawn and Dale CALVERT, with 38,613 PV. The right panel is titled "HIGHEST REORDERS IN AUGUST" and lists a top performer, Ira Potts, with 12,589 PV. Both panels list other top performers with their PV values.

Today we work with our team all day every day, I am 100% focused on building this team and we currently have the fastest growing team in the country. We have every resource and funnel you will need and are doing some out of the box distributor development stuff. Honestly I am seeing people

develop skill sets, and mindsets in 30 days that it would normally take years.

We have several experienced team builders that have joined us, but most are average people that have worked hard in various programs for 5-10-15 years and never experienced the financial rewards they deserve.

This podcast features one of our team members & kinda says it all. I have a lot of active people but about 40 people like this, committed, average people with desire that are having fun, growing and making more profits than they have ever experienced. For me, that is what it is all about.

Pete, let me know what questions you have, I really look forward to speaking with you. If the thought of riding another

big wave is appealing to you like it was me, I have no doubt this is the company to do it with, or I promise you I wouldn't be here.
